PRAJWALKUMAR MADIWAL

Data Analyst | Business Analyst | Business Development Associate

Bengaluru, Karnataka | madiwalprajwalkumar@gmail.com | linkedin.com/in/prajwalkumarm
github.com/Prajwalkumar-1906 | prajwalkumar-portfolio.vercel.app

PROFESSIONAL SUMMARY

Final-year B.E. Computer Science student (2027) combining data analytics skills with hands-on business development experience. Proficient in Python, SQL, Power BI, and Excel for data cleaning, EDA, machine learning, and dashboarding, alongside lead generation, market research, and client outreach gained through two internships. Seeking Data Analyst, Business Analyst, or Business Development Associate roles where analytical thinking and relationship-building turn data into business growth.

SKILLS

Data & Analytics: Python, SQL, MySQL, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Statsmodels, Jupyter Notebook, Git

BI & Reporting: Power BI, Tableau, MS Excel (VLOOKUP, Pivot Tables, Dashboards), Sales Reporting, Data Visualization, Data Cleaning

ML & Statistics: Regression, Classification, Clustering, Hypothesis Testing, A/B Testing, NLP (TF-IDF)

Business Development: Lead Generation & Prospecting, Market & Competitor Research, Client Relationship Management, Cold Calling & Email Outreach, Negotiation, Pitch Decks (PowerPoint), CRM Tools (Salesforce, Zoho - basic)

EXPERIENCE

Business Development Intern | Galaxy Systems (Family Dealer Business) *Oct 2025 – Present (Part-time)*

- Generated and qualified 150+ leads per month via LinkedIn Sales Navigator and cold email campaigns, contributing to a 12% increase in the sales pipeline.
- Researched target industries and prepared competitor benchmarking reports used by the sales team to refine pricing strategy.
- Built and delivered 10+ client pitch decks in PowerPoint, supporting a 20% higher meeting-to-proposal conversion rate.
- Tracked outreach and conversion metrics in Excel and presented weekly performance summaries to the BD Manager.

Sales & Market Research Intern | Dream Den Community (College Enterprise Cell) *May 2026 – Present*

- Conducted primary market research with 200+ respondents to assess demand for a campus food-delivery concept.
- Onboarded 15 local vendor partners by pitching value propositions and negotiating commission terms.
- Compiled findings into a market analysis report that informed the venture's go-to-market strategy.

PROJECTS

Predictive Customer Retention Engine | GitHub *Machine Learning*

- Developed an end-to-end machine learning pipeline using classification algorithms (Random Forest, XGBoost) to predict customer churn; engineered key features from behavioral and transaction data to output actionable churn probability scores.
- Enabled a proactive retention strategy by forecasting high-risk accounts, supporting targeted interventions, efficient resource allocation, and optimization of Customer Lifetime Value (CLV).

The Vendor Growth Pipeline | GitHub *Data Engineering / ETL*

- Architected and deployed an automated ETL (extract, transform, load) data pipeline for vendor performance and transaction metrics, integrating multiple data sources to ensure data quality and enable vendor KPI tracking.
- Accelerated decision-making by replacing manual reporting with automated infrastructure, helping stakeholders identify top-performing vendors, optimize operations, and drive ecosystem revenue growth.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Engineering *2023 – 2027*
Rajarajeswari College of Engineering, Bengaluru | CGPA: 7.7/10
Relevant Coursework: Data Structures & Algorithms, DBMS, Statistics & Probability, Machine Learning, Data Mining

Senior Secondary (XII), Science *2021 – 2023*
Tungal PU College, Vijayapura | 82%

CERTIFICATIONS

- Sales & Business (CRM) Development Fundamentals – Salesforce (2026)
- Fundamentals of Digital Marketing – Google (2025)
